CARBON, ALBERTA, THURSDAY, APRIL 3, 1947

Authorized as second class mail, Post Office Department, Ottawa.

## In the Legislature

By H. G. Hammell, M.L.A.

Alberta car licensees this year will be \$1.00 higher. This will go into a fund which will provide a source of assistance in cases of accidents where the one liable has no funds to pay for damages awarded. Free hospitalization will be provided to people who sustain injuries as a result of car accidents. The effect of changes in regulations will mean that, to protect their own interests people will be well advised to carry automobile insurance. The Act does not say that car operators must have insurance, but if anyone is operating a car without insurance, and has an accident, he will lose his driver's license. Motorists may secure the insurance anywhere they like. The Alberta Government Insurance Office will begin writing sickness and accident insurance, as well as automobile insurance.

A Bill to professionalise graduates from the faculty of agriculture has been passed. This will mean that people such as district agriculturists will now be members of a profession known as agrologists.

A change in the Livestock Disease Act deals with Bang's disease. It permits any buyer of cattle 10 days in which to discover whether the animals have Bang's disease. If the purchased animals have the disease the buyer has 14 days to return the animals and get his money refunded. It is hoped that this legislation will help to check the spread of Bang's disease and undulant fever.

There will be a number of minor changes in the Election Act. One of the more important changes is that figures only will be used in marking ballots in provincial elections. The voter will mark his first choice with

the figure "1", his second choice with the figure "2", etc. Any ballot marked with an "X" will be considered a spoiled ballot.

There are some changes in the Mineral Taxation Act which affect any land-owners who today own the mineral rights on their land. It is my advice to these people who own the mineral rights that they should send particulars regarding the ownership of these mineral rights to the department of lands and mines. It is in the interest of the land-owners that this be done.

As we have reached the close of the Session this will be the last weekly newsletter giving highlights of what has taken place during the recent Session. I wish to take this opportunity of expressing my sincere thanks to the editor of this paper for his kindness in bringing this information to the public. I will be glad to have any comments from interested readers regarding these matters.

### PUT OR TAKE

Some fellows stay right in the rut.

While others head the throng. All men may be born equal, but They don't stay that way long.

There is many a man, with a gallant air, Goes galloping to the fray; But the valuable man is the man who's there When the smoke has cleared away.

Some "don't get nuthin' out of life,"

But when their whines begin, We often can remind them that They don't put nothin' in.

### BIRTHS

**BIEBRICK** - Born on March 23rd to Mr. and Mrs. L. G. Biebrick of Grainger, a son.

**MCCRACKEN** - Born on March 25, to Mr. and Mrs. G. L. McCracken, Carbon, a son.

**OHLSHAUSER** - Born to Mr. and Mrs. Fred Ohlhauser on March 29th, a daughter.

### CARBON NEWS

The choir of Carbon United Church will render special Easter music on Sunday morning and the pastor will bring an Easter message. Following the service the Sacrament of the Lord's Supper will be observed. All are welcome.

There will be a service in Christ Church, Carbon, Sunday, April 6th at 11 a.m., Ven. Archdeacon Axon in charge.

**FOR SALE** - Bronze turkeys six hens, one gobbler. Apply to Mrs. Jas. King, Carbon.

Miss Lily Bertsch returned to the Carbon district after spending the past winter in Edmonton.

The W.A. will hold a tea, sale of work and home cooking in the Scout Hall on Saturday, April 12th at 3 p.m.

Mr. and Mrs. J. Adams and Mr. and Mrs. F. Emery are Calgary visitors this week.

Gus Burger is busy building a tool shed these days, ably assisted by Tom White.

The plane that landed in Stewart Hay's field last Saturday had quite a job taking off again.

J. R. Reid and son Jock returned from Vancouver this week and are busy getting ready for spring work.

John Atkinson, Jr. is sporting a new International truck. Understand Jim Hunt will be the driver this year.

Mr. and Mrs. Tetrault of Calgary are Carbon visitors.

Karl Schuler has his garage ready for a coat of stucco.

Mrs. C. Cressman spent a few days in Calgary last week.

Norman Nash and Art Wegum spent Sunday in Calgary. While in the city Art purchased a 1939 Olds.

The Fish and Game Association have purchased a trap shooting outfit and expect to get underway in this sport soon. No doubt lots of the local nimrods need the practice.

### CARD OF THANKS

Johnny Schmidt wishes to thank all those who assisted at the fire which destroyed his farm home recently. Also for the contributions of cash and miscellaneous articles.

## Irvin Mortimer Dies Suddenly

### CARBON NEWS

Doug Prowse is sporting a new sign on the front of the bus

Dick Poole has been busy doing a bit of interior decorating around town.

Sgt. Ray McMann will leave this week for Vancouver where he will receive his discharge. Ray has been stationed at Teslin Airport, in the far north.

### CARD OF THANKS

For the many kind expressions of sympathy received during our recent sad bereavement we wish to extend our sincere thanks.

Mrs. F. Bramley and Family.

### PITY THE PREACHER

A Texas paper comments as follows: "The preacher has a good time. If his hair is gray he is old. If he is a young man, he hasn't had experience. If he has ten children, he has too many; if he has none, he isn't setting a good example. If his wife sings in the choir, she is presuming; if she doesn't, she isn't interested in her husband's work. If a preacher reads from notes, he is a bore; if he speaks extemporaneously, he isn't deep enough. If he stays at home in his study, he doesn't mix enough with the people; if he is seen around the streets he ought to be at home getting up a sermon. If he calls on some poor family, he is playing to the grand stand; if he calls at the home of the wealthy, he is an aristocrat. Whatever he does, someone could have told him how to do it better."

### UNCLE HY SAYS:

Summer can't be far away, now that April's in command for April's sun and welcome rains will clear the air and bare the land, and show fall wheat in brilliant green, perhaps the best we've ever seen.

April coming after March finds this spring a lot to do, for the winter has been hard, a real old toughie through and through with ne'er a thaw and little sun, and hills of snow where autos run.

Summer can't be far away, now that April's really here, the early birds are back again, one hears their song so bright and clear, but enough of this, that ashes pile will take some shovelling for a while.

## Carbon Locker Damaged by Fire

Fire early Saturday morning caused damage estimated at \$400 to the Carbon Locker Plant. The fire started in the basement about 8.30 a.m. and was extinguished within a few minutes after the alarm was

Carbon and district citizens were shocked on Monday morning when it was learned that James Irvin Mortimer, 32, had died while on the way to work about 7.45.

"Fuzzy", as he was known to all, was born and educated in Carbon. He had operated the Carbon Transport since 1937 and was agent for The British American Oil Co. and the Massey Harris Co. He was a member of the Masonic Lodge in Carbon and vice-president of the Carbon Community Club.

Carbon United Church was packed to capacity and many had to remain outside at the service held on Wednesday afternoon. Rev. R. R. Hinchey officiated.

Pallbearers were Messrs. S. Wright, Wm. Ross, John Atkinson, Jr., O. Schielke, Const. Ross and S. J. Garrett.

Burial was in Carbon cemetery following Masonic services at the graveside.

Surviving are his wife, Ruby Agnes, two daughters, Karen and Linda; four sisters, Dorothy Carbon, Mrs. J. Parker, Okotoks; Mrs. J. Breckenridge, Calgary and Doreen in England, and one brother, Andrew, Carbon.

The Chronicle joins with the people of the community in extending comforting sympathy to the bereaved family.

### A. F. U. MEETING

There will be an AFU meeting in the Scout Hall on Monday April 7th at 7.30 p.m.

This meeting is open to all farmers. There will be two speakers present from the Alberta Poultry Producers and questions will be answered about your egg problems, pictures will also be shown.

Farmers, it is very important that you turn out and support your local as your farm organizations are just beginning to show good results. The same few old faithfuls always attend the meetings and are carrying the burden for this district and they are getting tired of it, so come on out and give your support to this meeting or we will be forced to close this local and give our support where it is appreciated.

We must stick together now if we don't want back the poor conditions we had in the 30s so give your support now before it is too late.

C.C.

# PATRONAGE DIVIDENDS

The Pioneer Grain Company has paid patronage dividends for the years ending 1942, 1943, 1944 and 1946. We will pay a patronage dividend for 1945 in a short time. If our earnings permit we intend to pay a patronage dividend for this crop year, so for better service and returns

## FIVE DOLLARS FOR FLAX

A return of around \$36 per acre was seen for western flax growers this season as a result of the new \$5 per bushel flax price announced recently under Dominion government coarse grain policy for the new crop year. The price is basis Fort William for the first grade and is calculated on the five year average flax yield on the prairies of 7.2 bushels per acre.

This result far exceeds the returns from other grains and Professor T. J. Harrison of the National Barley and Linseed Flax Committee, believes that the higher returns for producers will stimulate a much increased acreage in this grain which is needed urgently both for domestic and export purposes.

The Committee has set an objective of 3,000,000 acres for flax this year in the west, and, providing seed can be obtained Professor Harrison believes that considerable headway may be made in achieving this goal.

## WORLD OF WHEAT

The Evils of High Tariffs

If all the evils that upset the people of the world were added together in one scale of a balance, and tariffs were put into the other scale, it is probable that the latter would weigh down: for tariffs obstruct the trade and commerce of the world, and obstruct the exchange of the badly needed farmers' foodstuffs for the goods and commodities that foreign people make.

The League of Nations was of the opinion that the high tariffs set up by the United States and Canada in 1930 had a great deal to do with bringing on the severe world depression in the 1930s, which brought with it unsold surpluses and such low prices to farmers, such unemployment, hardship, desolation and hunger to the whole world.

This April there will be an international conference called to see what can be done to have the countries of the world reduce these hampering and evil high tariffs. Whether it succeeds or not, there is nothing whatever to stop Canada from reducing her own tariffs, so encouraging a greater importation of foreign goods into Canada, so automatically encouraging a greater sale to foreign people of our wheat and other agricultural products.

## BARLEY WINNERS ANNOUNCED

His tuition from a father who knows how to farm and experience as a youth when a member of a boys' and girls' seed club, paid off big for Geo. G. Elias, 32 year old farmer of Haskett, Man.

On April 1st at the Manitoba Winter Fair at Brandon he was crowned Canada's Malting Barley King and Federal Minister of Agriculture J. G. Gardiner presented him with a \$1,000 cheque as first prize in the National Barley Contest sponsored by the Brewing and Malting Industries.

Two Manitoba farmers, one from Alberta and one from Saskatchewan, placed in the four final interprovincial awards.

The winners were:

George G. Elias, Haskett, Manitoba, \$1,000.

George W. Johnson, Red Deer, Alta., \$500.

Donald Bradley, Portage la Prairie, Man., \$300.

John A. Wylie, Norquay, Saskatchewan, \$200.

## OFF THE RECORD

There is something mysterious about good clothes, says a report, which seems to help girls to attract eligible bachelors and get married. That's not so mysterious to us because we know it's their designs!

## Consider Rates Early Next Year

VICTORIA, March (CP) — Through passenger and freight rates from Vancouver to Dawson Creek will be considered early next year when the Prince George-Dawson Creek highway is completed, Premier Hart said today.

The premier made the announcement in commenting on Seattle reports that a through rate from Seattle to Alaska was under consideration.

Monty Woolley was informed that a well-known mind reader was planning to move to Hollywood. "I wish to predict," rasped Woolley, "that he will starve to death."

A man about 46 years of age,  
giving the name of Joshua Cop-  
persmith, has been arrested in  
New York for attempting to ex-  
port funds from ignorant and  
superstitious people by exhibiting  
a device which he says will convey  
the human voice any distance  
over metallic wires, so that it will  
be heard by the listener at the  
other end. He calls the instru-  
ment a "telephone", which is  
obviously intended to imitate the  
word "telegraph", and win the  
confidence of those who know of  
the success of the latter instru-  
ment without understanding the  
principles on which it is based.Well-informed people know that  
it is impossible to transmit the  
human voice over wires as may be  
done with dots and dashes and  
signals of the Morse Code, and  
that were it possible to do so, the  
thing would be of no practical  
value.The authorities who apprehend-  
ed this criminal are to be con-  
gratulated, and it is to be hoped  
that his punishment will be  
prompt and fitting, that it may  
serve as an example to other  
conscienceless schemers who en-  
rich themselves at the expense of  
their fellow creatures.**TROPIC PARADISE**  
Detroit Free PressCuba has barred a male visitor  
clad in shorts on grounds that he  
was guilty of indecent exposure.Knobby knees and hairy legs,  
slightly bowed, certainly come  
under the classification of inde-  
cent exposure, but as far as we  
know, Cuba is the only place that  
has advanced aesthetically far  
enough to admit it.Now if the island republic will  
go one step further and put the  
linen on fat gals in slacks, bare  
midriffs and halters, we'll con-  
cede it a degree of civilization we  
never hope to achieve here.**U.S. CRIME CROP**  
New York TimesDirector J. Edgar Hoover of the  
Federal Bureau of Investigation  
reports that 1946 was a record  
year for crime. There was an  
over-all increase of 7.6 percent in  
arrests over 1945, a 25.4 percent  
increase in arrests of males, a  
greater increase in rural than in  
urban areas, substantial increases  
in murder, manslaughter, robbery  
assault, and burglary. There were  
declines in arrests of women and  
minors. Girls under 21 behaved  
about one-third better than in  
1945 so far as behavior is meas-  
ured by arrests, but 40 percent  
worse than before the war.Two drunks boarded a Madison  
Avenue bus and one of them  
handed a nickel to the first man  
in uniform that he saw. The man,  
not too amused, thundered, "Don't  
give this to me, my man. I am an  
Admiral.""Let's get out of this thing  
quick," the drunk urged his friend.  
"We've gotten onto a battleship."**PLAN TO ATTEND****ANNUAL MISSIONARY CONFERENCE**

### OFF THE RECORD

It is said a way must be  
found to stop the flood of pro-  
paganda in favor of foreign idea  
logies in the world if permanent  
peace is prevail. Yes, dam it!

## MOTOR REVENUE FOR ROADS

For many years the Alberta  
Motor Association has urged  
provincial governments to ear-  
mark all motor revenues for  
road construction and main-  
tenance.

For this reason, special inter-  
est was shown in a recent re-  
port that the B.C. government  
has decided to adopt such a  
policy, specifically designating  
part of its motor revenues for  
road construction purposes. The  
B.C. government plans an ex-  
tensive highway program this  
year.

Attention also is drawn to the  
fact that south of the border 19  
states now have approved legis-  
lative action which prohibits the  
use of motor revenues for other  
than highway expenditures.

Judging by preliminary

statements made by officials of  
the Alberta government, there  
are good prospects of road out-  
lays this year being in excess  
of estimated revenues. Alberta  
is in dire need of improved  
roads and it is essential that a  
heavy program should be under-  
taken as early as possible when  
the construction period opens  
this year.

## COMMUNAL RESPONSIBILITY

Public commendation of the  
Canadian Red Cross Society's  
campaign for funds, now in  
progress, has been made by  
many of Canada's leading citi-  
zens. In their statements they  
all emphasized the peacetime  
aims of the Society and our in-  
dividual responsibility to con-  
tribute to the limit of our  
means.

At the recent annual meeting  
of the Hamilton Branch of the  
Society the distinguished Cana-  
dian soldier General H. D. G.  
Crear, interpreted our respon-  
sibility to the Red Cross in a  
new light . . . that of commu-  
nity effort.

"We have definite need in  
this country," said General  
Crear, "for less emotional  
oratory on 'freedom' and a lot  
more consideration and develop-  
ment of the essential require-  
ments of a democracy . . . the  
sense of general communal re-  
sponsibility."

"In the important contribu-  
tion to human welfare which is  
the best record of the Red Cross we  
have a practical demonstration  
of the essentials required for a  
democracy . . . a real sense of  
communal responsibility."

Community effort on a nation-  
al scale, with every man and  
woman lending moral and finan-  
cial support to insure the con-  
tinuation of a necessary peace-  
time program is the true life-  
blood of the Canadian Red  
Cross. Your support is needed now!

## PARLIAMENT TAKES RECESS

There are ten items of legis-  
lation on the order paper of the  
House of Commons as this is  
being written but prospect are  
that when parliament rises for  
its Easter recess this week all  
but two or three will be passed.  
Supplementary estimates to  
March 31, a minor amendment  
to the Militia Act, publication  
of statutes, appointment of au-  
ditors, a bill respecting the in-  
spection and sales of food pro-  
ducts and the regulations re-  
specting trading with the enemy  
are among the non contentious  
bills which should be passed be-  
fore adjournment although  
there may be considerable dis-  
cussion on the last. A new bill  
governing compensation to gov-  
ernment employees for accident  
or industrial disease encounter-  
ed in government service is im-  
portant new legislation, perhaps  
of special interest to labor, that  
may evoke much discussion.

Canada's 1946 tobacco produc-  
tion was the largest ever record-  
ed, the bulk of it grown in west-  
ern Ontario.

## FORAGE CROPS SEED DISTRIBUTION POLICY

To encourage a wider use of forage crops, the Alberta Depart-  
ment of Agriculture has arranged to make grass and legume  
seeds available to farmers at cost.

For details as to kinds of seed and prices, see the following  
local representatives who are co-operating in this Policy.

Alberta Wheat Pool Agent -- ACME  
Alberta Wheat Pool Agent -- BEISEKER  
Alberta Wheat Pool Agent -- CARBON  
Alberta Wheat Pool Agent -- SWALWELL  
Alberta Wheat Pool Agent -- THREE HILLS  
Alberta Wheat Pool Agent -- TROCHU

## SEED SUPPLIES ARE LIMITED

Only farmers who place their orders for seed at an early date  
can be assured that seed will be available.
